Klark Teknik DN9620 Release Note

Version 1.1.9 (11 Jul 2022)

This version is only required if you desire support for Heritage-D HD96-24.

New Feature

- Adds support for HD96 direct connection (see below)
- Continued Pro Series support: original configuration of 2 x DN9620 back-to-back network extender

HD96 mode

- Connect single unit directly to FOH snake port of HD96-24

Not supported

- Updating IO via DN9620
- Connecting DN9620 via AS80
- X/M32 not supported. If you require support for these products, please use Version 1.1.8

Installation/update

- Unzip archive
- Connect DN9620 to Windows 10 machine via USB
- Run executable on Windows 10 machine
- Follow on screen instructions
