KT-DANTE64 CM1 Module Firmware Update

Version 4.2.3.13 (29 April 2022)

New Features:

- Dante Brooklyn 2 firmware updated to v4.2.3.13

Addressed Issues:

- None. Dante feature update only.

Update Procedure:

- For firmware update instructions please refer to Dante Controller User Guides chapter on Dante Updater which can be found at:

  https://dev.audinate.com/GA/dante-controller/userguide/pdf/latest/AUD-MAN-DanteController-4.5.x-v1.1.pdf

- Once started, the update should not be interrupted.
- Once completed, each KT-Dante64 module needs to be rebooted by restarting the device it is installed in.
